

Our clients are Independent. Family oriented. Smart. And they are not interested in managing their own portfolio. Why? Because they have better things to do. Most of our clients are retired or are preparing for retirement. This is the best time of their lives, as they have built up their savings in which to meet one of the most important goals in their lives... for the rest of their lives. They don't want high risk and aren't interested in high flying returns. They want comfort, security and an investment advisor, like 3rd Street Capital Management, to replace their income.
